

There are three ways for parents to check field conditions:

Go to the Rainoutline.com website. Here is the link that takes them straight to the South Central Fields: <http://rainoutline.com/search/dnis/3142666925> This lists every field. They can click on the field to see the field conditions. This also lists the address and a map of the field.

They can call (314) 266-6925 to check field conditions.

Download the Rain Out Line app (I-Phone and Android). Once on the app, search for "CYC South Central". The parents will be able to view the field conditions and also listen to any message from the field manager.
