April 22, 2020

Dixie Youth Baseball Officials,

We are beginning to see the number of new cases of Covid-19 declining in some areas. It is encouraging to see this gradual daily decline plus the increases in testing and Personal Protection Equipment being more readily available. We are far from out of the woods at this time but these new developments give us a glimmer of hope that soon we will see the light at the end of the tunnel and start the processes of returning to some semblance of normalcy in our lives. Most of us are, and should be, heeding the directions of the federal, state and local authorities and the U.S. Center for Disease Control and Prevention (CDC). As our medical professionals continue to battle this pandemic, social distancing still appears to be the best way to prevent the spread of the virus.

Dixie Youth Baseball continues to monitor the latest guidance from the CDC and healthcare professionals. We understand the need of people to return to normalcy. Nothing would make us happier than to see our children playing the game of baseball but we must move forward with an overabundance of caution for the well-being of all involved and our communities.

The #1 priority of Dixie Youth Baseball is to offer regular season play, which offers the greatest opportunity for all of our children to participate. Our goal is to get players back on the playing fields in their local league program as soon as it is safe to do so.

We are hopeful that conditions allow us to play baseball this season. Dixie Youth Baseball is exploring various scenarios for the 2020 season, including tournament play.

Stay safe,

A handwritten signature in black ink that reads 'William Wade'.
